

PRODUCT INFORMATION

Hahn & Sohn ATS Switch, 5 kW / 25 A

The automatic Hahn & Sohn ATS switch is used for automatic startup of a compatible generator during a power outage and subsequent switching of the power supply to the generator. Once the mains power supply is restored, the unit automatically switches the power back and shuts down...

PARAMETER	VALUE
Category	Accessories for power generators
Weight	5.25 kg
Device type	ATS - Automatic Transfer Switch
Purpose	automatic switching between the grid and the generator
Performance variant	5 kW
Rated current	25 A
Operating voltage	DC 8-15 V
Charging input voltage	AC 90-250 V
Charger output voltage	DC 14,4 V (±2 %)
Charging current	850 mA

PARAMETER	VALUE
Dimensions	315 × 250 × 135 mm
Length of the connection cable	approx. 1.5 m
Connector	7-pin chrome-plated connector
Operating temperature	-25 to +80 °C
Storage temperature	-15 to +60 °C
Recommended wire gauge	2,5 mm ²
Modes	AUTO / MANUAL
Emergency stop	YES
Traffic Signals	YES

Data from Hahn & Sohn product documentation. Before selecting a model, confirm the intended application, configuration and operating conditions.
